

Payroll Overview

PayBridge™ is a national provider of integrated payroll services. Partnering with trusted advisors and brokers, PayBridge offers clients an enterprise-smart™ solution that integrates payroll with a wide variety of business services; a user-friendly, web-based interface; and unparalleled customer support.

Web-based Solution: Scalable and securely-hosted. Verify and process payroll from anywhere, anytime.

Real-Time Performance: Immediate access to payroll data, as well as the ability to view preliminary payroll reports prior to final posting.

Census Data: PayBridge's Census Vault enables on-demand, electronic access to payroll census data which is critical to plan compliance.

Platform Independent: PayBridge integrates with virtually any retirement or insurance plan.

Integrated: PayBridge payroll and 401(k) integration eliminates the need for the client to maintain or edit contribution files.

Single Database: One database. One employee record. PayBridge unifies payroll, HRIS, timekeeping, benefits and retirement which eliminates manual and repetitive data entry.

Simplified Implementation Process: The entire implementation process is managed by the PayBridge implementation team. All year-to-date data is loaded prior to initial payroll processing.

Superior Customer Support: PayBridge provides a client-assigned Customer Service Representative to guide and assist you with payroll questions or needs—no more 800 number call centers.
